- Tamil

PROFILE

Experienced Front-End Developer with over 3 years of expertise in creating dynamic web applications using React (Hooks, Redux, Context API, Recoil, SWR). Skilled in REST API integration, JavaScript (ES6+), TypeScript, HTML5, CSS3, and responsive design. Proficient with front-end build tools (Webpack, Babel, NPM/Yarn) and version control (Git, GitHub). Dedicated to building efficient, scalable, and maintainable solutions with a strong focus on user experience and modern development practices.

WORK EXPERIENCE

Software Developer

Webandcrafts

Jan 2023-Present

- Led the dashboard team, architecting complex projects including multiple dashboards and Matrimony applications. Utilized React, Redux, Bootstrap, Tailwind CSS, and ES6 for high-performance, scalable, and SEO-friendly designs
- Implemented Next.js for server-side rendering (SSR), enhancing application performance and SEO capabilities.
- Enhanced application scalability and performance through advanced state management using Context API and Recoil. Streamlined data fetching processes with REST APIs and SWR
- Optimized development workflows and build processes with Webpack, Babel, and NPM/Yarn. Ensured responsive and cross-browser compatible interfaces with HTML5, CSS3, and Tailwind CSS
- Maintained code quality, version control, and collaborative development using Git and GitHub

Software Engineer L2

Claysys Technologies

Jul 2021 - Jan 2023

- Spearheaded React-based web app development, emphasizing responsive UI design with HTML, CSS, Bootstrap, and DOM manipulation for enhanced user experience in robust banking application
- Advanced React skills refined with TypeScript for scalable, maintainable solutions, adhering to best practices
- Implemented Agile methodologies like Scrum using Jira and Trello for efficient project management and collaboration.
- Leveraged React Router DOM for seamless application navigation and state management, optimizing performance.
- Optimized web applications for speed, efficiency, and scalability to enhance user satisfaction and overall performance.
- Orchestrated CI/CD pipelines for streamlined deployment processes, ensuring continuous delivery of updates.

CERTIFICATIONS

Python Django Internship

2020

- Developed web applications using Python Django framework, contributing to the creation of dynamic and responsive websites, gaining hands-on experience in back-end development, database management, and API integration
